New Pull-Over Sweaters For Women

Are knitted of imported Botany wool in all the favored shades. They have round collars and fit snugly at waist. The price is \$6.50

If Your Food Ferments or Diarrhoea Just Read This!

Thousands of broken-down, despondent, dyspeptic have recently been given back their health.

These happy people can't proclaim it was a miracle that endowed them with a new lease of life—it was simply their common sense in accepting and proving medicine, one specially adapted to their particular ailment.

All these splendid cures were effected by Dr. Hamilton's Pills, which beyond all question have a strange power to restore a weak or ailing stomach.

If your stomach is tired and overworked try Dr. Hamilton's Pills, and note the prompt improvement. Pain before or after eating will disappear. You'll no longer have that nauseous, gassy, bad tasting sensation. You'll get a real vigorous appetite and digest what you eat. Lots of well digested food to build up your strength, to make you brighter and more ambitious; in a week you'll feel like a different person, in a month you'll be permanently restored.

For folks who are out of sorts, not feeling just up to the scratch, perhaps bothered with headaches or constipation, to them Dr. Hamilton's Pills will prove a boon.

THE COW PUNCHER

ROBERT J. C. STEAD

Copyrighted, Canada, 1918, By The Munson Book Co., Ltd., Toronto, Printed By Special Arrangement.

(Continued.) "And I suppose I need not conceal from you," he answered, "what my hopes have been. Those hopes have grown as my acquaintance with you has grown. It is reasonably safe to judge a daughter by her mother, and by that standard Irene is one of the most adorable of young women."

"I have been called attractive in my day," confessed Mrs. Hardy, warming at once to his flattery.

"Have been?" said Conward. "Say rather you are. If I had not been rendered, perhaps, a little partial by my admiration of Irene, I well, one can scarcely give."

"I have been called attractive in my day," confessed Mrs. Hardy, warming at once to his flattery.

"I was sure of that," she returned, already much comforted. "I was sure of your sympathy, and that you would be a good friend."

"I shall need your co-operation," he warned her. "Irene is a girl you will love, but she is a girl who will not be won by flattery. And this is what she has brought upon me, and she has not here to share my grief. She has brought upon me, and she has not here to share my grief."

"She is set in her own mind," Conward continued. "We must not only oppose her, but we must also be resigned even to the extent of treating Elden with such consideration as you can. To argue with Irene is useless; to argue with Irene—something like that—she is a subject like this. We must reach her some other way."

"The way that occurs to me is to create distrust. Love is either absurdly trustful or absurdly suspicious. There is no middle course, no balanced judgment. Everything is in extremes. Everything is seen through a magnifying lens, or missed altogether. In the trustfulness of love little virtues are magnified to angelic qualities, and vices are quite unseen. But change that trust to suspicion, and a hidden, sinister meaning is found behind the simplest word or act."

Conward had risen and was walking about the room. He was conscious of being regarded as a man of very deep insight, and the consciousness pleased him.

"We must cause Irene to distrust Elden—to see him in his true light," he continued. "That may be possible. But if it should fall we must take another course, which I hesitate to mention to you, but which may be necessary if we are to save her from this fatal infatuation. If our efforts to cause Irene to distrust Elden in his true light were to fail, and she were to discover those efforts, she would be more set in her favor than ever. So we must plan two campaigns, one which I have already suggested, and one, if that should fail, to cause Elden to distrust Irene. No, no," he said, raising his hand toward Mrs. Hardy, who had started from her seat.

"Irene is a girl who will not be won by flattery. And this is what she has brought upon me, and she has not here to share my grief. She has brought upon me, and she has not here to share my grief."

"Irene is a girl who will not be won by flattery. And this is what she has brought upon me, and she has not here to share my grief. She has brought upon me, and she has not here to share my grief."

CHAPTER NINETEEN

Conward passed to speak to Irene before leaving the house. "And I give them most frankly, although, perhaps, with more difficulty than you imagine."

"You are very good, Mr. Conward," she acknowledged.

"I could not but say you anything but happiness," he returned. "And had I been as fortunate as Elden, in making your acquaintance, I might have hoped to contribute to your happiness more directly than I can under the present circumstances."

"Irene is a girl who will not be won by flattery. And this is what she has brought upon me, and she has not here to share my grief. She has brought upon me, and she has not here to share my grief."

"Irene is a girl who will not be won by flattery. And this is what she has brought upon me, and she has not here to share my grief. She has brought upon me, and she has not here to share my grief."

"Irene is a girl who will not be won by flattery. And this is what she has brought upon me, and she has not here to share my grief. She has brought upon me, and she has not here to share my grief."

THE WIRELESS, EASYEST

At the Marconi station at Chelmsford, England, the other day a wireless message of congratulation was exchanged by the use of an automatic wireless transmitter at Cambridge, 35 miles away.

A member of the Marconi company pointed out that there would be no difficulty in firing a gun from a spot 300 miles away. All that the gun used in the pneumatic electric circuit could have been fired at easily from London as from Ypres. Paris could cause an explosion in Berlin by merely pressing a key.

By increasing the range of the instrument, this wireless man said, it would be a comparatively simple matter for a man sitting in an easy chair in London to cause an explosion in New York. All that would be necessary would be to leave in New York a receiver suitably hidden and connected with a mine.

SUNDAY SCHOOL LESSON

LESSON FOR MARCH 24

REVIEW: THE LIFE WORK OF PETER AND JOHN

The review of the quarter's lesson can be profitably made to centre in the service of Peter and John, or perhaps better, the activity and power of the risen and glorified Christ, manifest in the service of Peter and John.

Peter proves that Jesus Christ arose from the dead, ascended to high and poured forth the Holy Spirit upon the church; the evidence of it, the unusual behavior of the disciples.

Lesson 2. Peter and John Heal a Lame Man (Acts 3). This remarkable miracle wrought in the name of Jesus Christ proved that though the Jews had crucified him, he has now alive and continued his work through the disciples.

Lesson 3. Peter and John Witnessing of the Risen Christ Before the Sanhedrin (Acts 4). As a result the Sanhedrin took knowledge that they had been with Christ, his life and work were being reproduced in and through them. Being with Christ will give an experimental knowledge of him, so that the life will remind one of Jesus.

Lesson 4. The Risen Christ Vindicating His Church (Acts 13-16). He passed judgment upon Ananias and Sapphira for their hypocritical pretense of generosity. The living Christ knows the intents of the heart; nothing can be concealed from him.

Lesson 5. The Living Christ Saving the Soul of a Man (Acts 16-18). His sanctification of the preaching of the Gospel by Philip in Samaria is shown by the outpouring of the Holy Spirit. Peter and John were sent by the church to confirm the work.

Lesson 6. The Living Christ Healing the Sick and Raising the Dead (Acts 19-20). Christ is alive is proved by the vanquishing of the dreadful malediction of the dead and the raising of the dead. Nothing like this had been known since the days of Christ.

Lesson 7. The Risen Christ Revealing Himself to a Gentle (Acts 10). Peter testifies to Cornelius that Jesus Christ died for sin and is to be the judge of the quick and the dead, and that everyone who believes on him will receive remission of sin.

Lesson 8. Peter is Delivered From Prison Through the Living Christ (Acts 12:1-19). The church prayed for Peter's deliverance and the prison was opened. All power is given him in heaven and in earth; there is nothing too hard for the living Christ.

Lesson 9. Christ is the Revealer of God's Love (1 John 4:7-21). The proof that Christ is alive is the love that he has in the hearts of those who love him.

Lesson 10. Christ is Alive Because He is Walking in the Midst of the Churches (Rev. 14:1-8). In heaven, the crucified, risen and glorified Christ will be the centre of worship. All glory and honor are ascribed to him because of his marvelous work of redemption.

Lesson 11. Christ is Alive Because He is Walking in the Midst of the Churches (Rev. 14:1-8). In heaven, the crucified, risen and glorified Christ will be the centre of worship. All glory and honor are ascribed to him because of his marvelous work of redemption.

Lesson 12. In heaven, the crucified, risen and glorified Christ will be the centre of worship. All glory and honor are ascribed to him because of his marvelous work of redemption.

Lesson 13. In heaven, the crucified, risen and glorified Christ will be the centre of worship. All glory and honor are ascribed to him because of his marvelous work of redemption.

Lesson 14. In heaven, the crucified, risen and glorified Christ will be the centre of worship. All glory and honor are ascribed to him because of his marvelous work of redemption.

Lesson 15. In heaven, the crucified, risen and glorified Christ will be the centre of worship. All glory and honor are ascribed to him because of his marvelous work of redemption.

Canadian Holsteins For Great Britain

Next Year a Shipment of Holsteins from Canada Will Enter England.

A few years ago a shipment of Holsteins from Canada was allowed to enter England from Holland, and it is from their foundation animals that the numerous British herds of this breed have been derived. It now seems that the time has come when it will be necessary to introduce fresh blood for the revival of these British stocks, and to that end it is stated that next year a shipment of Holsteins from Canada will be permitted to enter England. The cattle will require to be introduced on a special dispensation, for the British Government does not permit entry of live cattle in ordinary circumstances.

Meats may enter, but live cattle have to be slaughtered at special landing docks, the dead stock to be kept on board. As another shipment of Holsteins from the continent is under the question, the importation of Canadian Holsteins, according to the North British Agriculturist, is being considered, the fact that "fresh blood must be got if the breed in Great Britain is to be maintained."

—Breeder's Gazette.

Japan Denies Report

Story That She Bought Victory In 1904-5 "Preposterous."

London.—The Japanese Embassy here issued the following statement: "Referring to the news circulated in the last few days to the effect that Japan bought the victory over Russia in 1904-5, the Japanese embassy declares this is entirely groundless. Moreover, we submit that there is some foul play involved in the rumor."

The story, of course, is preposterous and chimerical that it hardly deserves a formal denial; but in view of the fact that several papers printed it, it is well that it should be noticed.

Reuter announces the disappearance of one of the last of the war news-papers, the "Lion d'Arras." These war area sheets, which did so much to cheer and encourage the inhabitants of the stricken towns and countryside, will be looked upon in the future as one of the most interesting products of the war years. The "Lion d'Arras" appeared in the city at a time when the enemy was within a few hundred yards from the walls.

The founder of the paper was the Abbe Guerrier, who continued its editor during the 172 weeks of its existence.

The minister of agriculture in a recent statement in the provincial parliament in regard to the development of the natural resources of the province, alluded to certain deposits of sodium-sulphate that had been discovered in the southern part of the province. Samples of these deposits were examined by the government chemist, the output from which analysed 93 per cent. pure or 99.1 per cent. after certain elements, such as moisture, had been removed. The producers of the deposit at Fullerton claim for its product even greater purity than this.

Saskatchewan Dairy Production. In its agricultural report for the last fiscal year the Dairy Commissioner for Saskatchewan shows the remarkable increase of 187.6 per cent. for the province in dairy production. Though 97 cars of butter were reserved for home trade, a total of 2,425,000 pounds of butter went to outside markets. The total value of the dairy products is given as \$3,180,622.

Scotch Clydesdale for Alberta. A shipment of purebred Clydesdale stallions has just arrived in Calgary after being imported from Scotland. These have been purchased by Andrew Dollar, a well-known horse breeder of Southern Alberta, and have been shipped to add to his already valuable stud at High River.

Nine Indian reserves in Western Canada are to be opened up to settlement by soldier-farmers, according to the announcement of C. W. Cavers, Ottawa.

We often see weak old men and weak old ladies.

Ladies Have a Clear Sweet Healthy Skin By Using Cuticura.

Promote skin purity, skin comfort and skin health by making Cuticura your daily skin preservative. Wash off with five minutes with Cuticura. Wash off with five minutes with Cuticura. Wash off with five minutes with Cuticura.

Reports have issued from the Vladivostok trade commissioner's office from time to time.

Rattlesnakes were known in colonial times in the Middle States, but have long since disappeared.

Lesson 4. The Risen Christ Vindicating His Church (Acts 13-16). He passed judgment upon Ananias and Sapphira for their hypocritical pretense of generosity. The living Christ knows the intents of the heart; nothing can be concealed from him.

Lesson 5. The Living Christ Saving the Soul of a Man (Acts 16-18). His sanctification of the preaching of the Gospel by Philip in Samaria is shown by the outpouring of the Holy Spirit. Peter and John were sent by the church to confirm the work.

Lesson 6. The Living Christ Healing the Sick and Raising the Dead (Acts 19-20). Christ is alive is proved by the vanquishing of the dreadful malediction of the dead and the raising of the dead. Nothing like this had been known since the days of Christ.

Lesson 7. The Risen Christ Revealing Himself to a Gentle (Acts 10). Peter testifies to Cornelius that Jesus Christ died for sin and is to be the judge of the quick and the dead, and that everyone who believes on him will receive remission of sin.

Lesson 8. Peter is Delivered From Prison Through the Living Christ (Acts 12:1-19). The church prayed for Peter's deliverance and the prison was opened. All power is given him in heaven and in earth; there is nothing too hard for the living Christ.

Lesson 9. Christ is the Revealer of God's Love (1 John 4:7-21). The proof that Christ is alive is the love that he has in the hearts of those who love him.

Lesson 10. Christ is Alive Because He is Walking in the Midst of the Churches (Rev. 14:1-8). In heaven, the crucified, risen and glorified Christ will be the centre of worship. All glory and honor are ascribed to him because of his marvelous work of redemption.

Lesson 11. Christ is Alive Because He is Walking in the Midst of the Churches (Rev. 14:1-8). In heaven, the crucified, risen and glorified Christ will be the centre of worship. All glory and honor are ascribed to him because of his marvelous work of redemption.

Lesson 12. In heaven, the crucified, risen and glorified Christ will be the centre of worship. All glory and honor are ascribed to him because of his marvelous work of redemption.

Lesson 13. In heaven, the crucified, risen and glorified Christ will be the centre of worship. All glory and honor are ascribed to him because of his marvelous work of redemption.

Lesson 14. In heaven, the crucified, risen and glorified Christ will be the centre of worship. All glory and honor are ascribed to him because of his marvelous work of redemption.

Lesson 15. In heaven, the crucified, risen and glorified Christ will be the centre of worship. All glory and honor are ascribed to him because of his marvelous work of redemption.

Lesson 16. In heaven, the crucified, risen and glorified Christ will be the centre of worship. All glory and honor are ascribed to him because of his marvelous work of redemption.

FARMERS' BREED PERCHERONS

The only breed of horses ever shipped back to England from Canada for breeding purposes were Percherons. The greatest breed of heavy horses in North America are Percherons. The only breed of horses in the world today is Percherons. A point to remember—A plan to handle.

Write for information and literature. Let us put you in touch with the best Canadian Percheron Breeds. Mention this paper when writing. The Canadian Percheron Breeders' Association, William H. Wilson, Secretary (Desk A), Calgary, Alberta.

HAR U AND NAMAKA FARM PERCHERONS

The largest stud of the Percheron in the world. The Har U Percheron Breeding Farm, established in Canada. The only one of the American continent. Har U Percheron Breeding Farm, located in the heart of the Percheron country.

Do not miss this. British breeders come to Canada and carry off all our best Percheron stock. Do not be misled by the cheap stallions brought in by importers. Do not be misled by the cheap stallions brought in by importers. Do not be misled by the cheap stallions brought in by importers. Do not be misled by the cheap stallions brought in by importers.

Irrigation Among The Trees

One of Greatest Works Round the World of Modern Engineers.

It is well known that the natives of Peru, at the date of Pizarro's conquest, had reached a high degree of culture. One of their greatest works had recently been conceived, under the name of the "Irrigation of the Trees." This is the irrigation canal constructed by order of Viracocha; the canal is 314 meters deep, and almost 650 kilometers long, running through the present departments of Huancavelica and Ayacucho. It converted the plains of Castrovirre and Campesino into flourishing pasture land. The work is all the more surprising when there is taken into consideration the nature of the land, which is between 3,500 and 4,800 meters above the level of the sea, and was encumbered with gigantic rocks that had to be removed without the aid of machinery, explosives, or iron implements. There were high slopes to be connected by bridges, and mountain torrents that had to be turned to use.

Like a Tidal Wave

Heart Disease and Nerve Troubles Sweep the Country

Probably at no period in the world's history have heart and nerve troubles been so prevalent as they are today. The heart can't stand the stress and strain of this busy, bustling age, and the care and worry of the modern world of business life constitute a serious strain on the nervous system.

The business of this world-age world goes with such a rush that the heart can't stand the stress and strain of this busy, bustling age, and the care and worry of the modern world of business life constitute a serious strain on the nervous system.

On the first approach of any breakdown of the system, the heart and nerve troubles should be taken. The heart and nerve system is simply marvellous.

Mr. W. A. Wright, Howseville, Ottawa, Ont., writes: "After suffering for some time with my heart, I consulted a number of doctors, but got no relief. However, I read what Mr. Wright's Heart and Nerve Pills had done for others, who had the same symptoms and thought I would give them a try. I am feeling like a new man now, and can attend to my work as usual. I can recommend your pills to anyone suffering from heart and nerve troubles. Price 50c a box at all dealers, or on receipt of price by The T. Milburn Co., Limited, Toronto, Ont."

Reconstruction in France

Large Part Will Be Restored By September

The reconstruction of France, after her devastation by the enemy, is beginning to be manifest, and when the "grape is full the vineyard will smile" and a large part of France will be itself again. So the French peasants are saying in their spring meetings.

Each year the optimism of the outlook. Out of 1,403 miles of railway lines destroyed during the war, France has made 1,267 miles ready for use by the end of September. Out of 1,160 destroyed bridges, she had reconstructed 957. Out of 672 miles of canal, 492 miles were ready for use by the end of August. Out of three thousand agricultural instruments destroyed or removed by the Germans, two hundred thousand had been replaced. Out of 550,000 houses destroyed, 80,000 have been sufficiently repaired to be utilized; 16,225 have been provided and 60,000 were in process of construction by the end of the past year. Out of 6,599 square miles of land devastated, 1,540 square miles have been made fit for cultivation at the same date, and 74 million cubic meters of trench excavation have been filled in.

A few more smiles of silent sympathy, a few more tender words, a little more restoration of temper may make all the difference in our lives.

LET "DANDERINE"

SAVE YOUR HAIR

Check your dandruff! Stop hair coming out and double its beauty.

A little "Danderine" comb cleanses and makes the feverish, itchy scalp soft and pliable; then this stimulating tonic restores the hair to its natural roots, revivifying and invigorating every hair in the head, thus stopping the hair falling out, or getting thin, dry or falling.

After a few applications of "Danderine" your scalp and hair will be as soft and pliable as a baby's. It shows new life, vigor, brightness, more color and thickness.

A traffic policeman in Chicago ordered the first automobile on Michigan avenue in 1893.

New Zealand's Views on Ireland

Separation From Empire Sounds Abnormal and Impossible

Most New Zealand people watch the development of events in Ireland with mingled perplexity and impatience. They would like Ireland to have Home Rule, if the Irish people want it, but the talk of Irish republic and separation from the Empire sounds absurd and impossible. The Prime Minister of New Zealand is an Irishman. The last census showed that about four per cent of the population of the Dominion had been born in Ireland, and the New Zealanders of Irish descent form a substantial proportion of the people. The Home Rule issue has been mentioned in the New Zealand Parliament on several occasions, but always the men at the head of affairs have avoided discussion on the ground that the domestic policy of the United Kingdom is no concern of a self-governing Dominion. Undoubtedly there would be a ready response if the British Government asked New Zealand ministers to take part in an Imperial conference to consider the Irish question. But the ministers would not go over to discuss separation.

After Effects OF INFLUENZA

OFTEN SERIOUS

Victims Are Left Weak, Tired and Mentally Depressed — Tonic Treatment is Strongly Recommended

No pestilence in years has caused more widespread suffering than the epidemic of influenza which swept over Canada in the fall and winter of 1918-19, and again this winter. The danger from this trouble is seldom even more serious than the symptoms, the fever, headache and the depression of spirits have passed away, leaving behind a feeble, weakened, vital powers, thin blood, impaired digestion and over-sensitive nerves. Men and women who were robust before stricken with influenza find their bodies racked by pains previously unknown to them. This condition is due to an abnormal thinning of the blood and leaves the system an easy prey to other serious troubles. This is the time when the consequences of influenza should be built up by a reliable blood-making tonic such as Dr. Williams' Pink Pills. Weak blood means impoverished nerves, impaired digestion, a feeling of tiredness after even slight exertion, and sometimes even more serious symptoms. When the blood regains its rich red quality the nerves recover their strength and the organs of the body function naturally. In fact, building up the blood will vitalize the whole system.

Russell Liggins, of Lacombe, Tells of Life in German Prison Camps

Following is an account of the experiences of Russell L. Liggins while in Germany.

Here I was captured.

I was wounded at taken prisoner on December 10th, 1917 on the Marston Front. I had joined my battalion, the 1st at Hill Camp a week previous. I was one of the fighting patrol of 12 men, picked on the morning of the tenth for the time this patrol was to be in the line.

The duty of this party was to patrol the battalion front for the purpose of noting conditions of enemy wire and shell holes, or getting any other information, and a prisoner if possible.

Armed with a revolver and a Mills bomb each, and a Lewis machine gun, we went over the top at nine p.m. The night was clear and fairly cold; the distance between the two lines at this point was between twelve and fifteen hundred yards. After being out two hours, during which time we gained but little information, not having come in contact with the enemy, we were returning to our own lines; when we discovered that we were lost. We wandered around for perhaps an hour before finally coming into contact with Fritz.

We were very close to the enemy trenches, and had evidently been seen by them. A party of probably 200 proceeded to surround us, cut us off from our own lines. Having thrown up V-weapons or flares to locate our immediate position, they opened fire on us. Being badly outnumbered we stood a very poor chance.

One was killed at the first fire, and several wounded. Up till then I had not been hit, but by this time I was a case of everybody for himself. After having emptied my revolver at the enemy, I decided to get away if possible, but I had only gone a few yards when I was wounded in the thigh by a machine gun bullet. Fritz kept up a rapid fire for some time, but at last receiving no return fire, he decided he had finished us. They closed in on us with fixed bayonets, demanding our surrender, having no alternative, we threw our hands up.

Seven prisoners were taken, five of whom were wounded, the officer and one man not being wounded. Later, we learned that two of our party had succeeded in getting away, and were picked up early the next morning by some of our own men.

We were taken into the German lines where they dressed our wounds, using our own field dressings for the purpose. When they had questioned us, we were taken to another dugout where we were inoculated and tagged, and left for the remainder of the night.

The following morning we were sent back to the front line, where we were to walk doing so, another chap and myself being taken on stretcher. We were taken to another dugout nearly a mile behind the German lines in a ruined village. We were left here for several hours until an ambulance came and removed us still further back. After riding nearly all afternoon we finally came to Douai, where we were taken out and put in a German hospital. Our wounds were examined and dressed here, and we were put in a fairly comfortable bed.

There had two slices of black bread and some soup, the first food I had tasted since our capture nearly twenty-four hours before. I was so hungry that I thought I had never tasted anything so good in my life.

The next day we were all questioned in turn by a German Officer of the Intelligence Department. I was carried in on a stretcher, the German officer spoke English fluently, addressed me as follows: "Good morning, my young friend, for you the war is finished, you will take a trip to Blighty Germany, Blighty." I remarked casually that I would have preferred English, Blighty. He laughed and after extending his cigarette case he informed me that before the war he lived in England, and had liked it very much. He then proceeded to question me, asking me everything that he thought might be of any value to them, to most of which I replied that I didn't know.

After he had finished questioning me he turned around and told me the very things he had asked me, and I was very much astonished, as he had everything down pat. Among other things he asked me how long the war would last, and who I thought would win. I expressed my opinion that the war would last at least another two years, and that the Allies would win. He seemed somewhat surprised, and told me he did not think it would last more than six months, and thought it would end in a draw, neither side gaining a decision.

After remaining here several days we were put on a Red Cross Train, and taken to Tournai, Belgium, where we were put in a hospital which was full of prisoners, mostly Russians and Italians, with some English. This hospital had been the munition and being used by Germans as a hospital. We had all our wounds examined here by the Surgeon General of the Bavarian army, who was quite an old man. When he looked me, he enquiringly asked me if I was a baby to bother with a scratch like that, and why we Canadians came over to fight against them. I explained that as England was at war, so was Canada, it being a part of the British Empire. He cut us short with the remark that he had come over for the money and nothing else. I did not attempt to argue further with him. He never did

anything for my wound, not even providing to see if he could find the bullet.

I remained at this place for nearly three weeks and nothing was done for me, all we had to eat was several thin slices of black bread each meal and soup. Sometimes we got a thick soup, but for the most part they were very thin. We used to remark among ourselves that as long as the river Rhine ran, Jerry would never be short of soup. They had absolutely no soap of any kind here, and I had never had a wash with soap for the first month I was a prisoner, at last a sort of skin disease broke out on my body, which I attributed to not having any soap, all so to much water, sloppy food, and the absence of fat. I did not get rid of this until nine weeks after I had reached Germany, and was getting better food from the British help committee.

I spent Xmas 1917 at this place, and it was the most miserable Xmas that I ever remember spending, nothing but the usual fare, and not enough of that. Even when you drank a lot of soup and were filled out, you were not satisfied, and were hungry again in no time. The only ray of sunshine was a little parcel sent in by Belgian States to each prisoner, consisting of a small piece of cake, a little loaf of white bread, and a package of cigarettes, and a candle. This was surely appreciated, and my comrades and I never forgot the kindly sisters who brought a ray of sunshine into our lives that day.

We remained here until there were sufficient men to make up a train lead into Germany. At last on January 7th, we were ready to go, I was turned out with a thin undershirt, an old pair of trousers, and a pair of socks, no shoes, great coats or gloves, in the middle of winter to take a three days train ride without any heating arrangements whatsoever.

When I had entered this hospital, I had a new suit of khaki, good underwear, socks, and sweater. When I left, it had all disappeared but my boots and carigan jacket, and it was not the Germans who pinched it them but our own English comrades who were working in the hospital.

We were taken to a camp on January 10th, half dead with the cold and hunger. We arrived some time during the night previous, but were taken off the train and lined up on the platform for inspection by some German officers. We were taken through the fully 20 minutes in a bad storm, and nearly perished with the cold. After we had been inspected we were put in a sort of van and taken to the Lager or camp about three miles distant.

The next morning we were taken to a huge barracks, built of stone, and the doors opening on the inside. It was divided into different parts or sections. The Russians had one part, French another, and so on, with all the different nationalities. There were stores in the place, but no fuel to burn, and it was strictly against the rules to have a fire even if we were able to pinch a bit of wood from anywhere, which was very hard to do.

When we got to the English section our comrades were all very cold, and to cheer us up as best they could. They gathered up some empty cardboard boxes, which they proceeded to tear up, and made a fire in one of the stoves. They then made us some hot tea, and gave us a bit of food, and some jam, and I think I never tasted anything better in my life. We were then dished out with two flameless blankets, or part of them, and an old pallasse filled with any old junk that was available, and that was our bed.

The only way we could keep warm was for several of us to double up and use our blankets that way, and of course instead of taking any clothes off at night, we put on all we had to go to bed. Our comrades then hunted us in some old clothes which they could spare, and we were all taken to different messes with fellows who were receiving parcels from England, until our own would have time to arrive.

After we had been in camp several days, any of us who were able to work were assigned to different jobs. One of our fellows went to work on the railroad, another in helping to put up ice and so on. Then there were parties for fatigue to the town, and also work to be done in and around the camp.

During the day, I not having any work to do busied myself with doing the cooking for my own particular mess, and in trying to keep warm as far as I was able. The French had a cook house built with stoves in it, and bought wood from the Germans to cook with. Many times I have had a good warm up in this place, when I would be making stew for a meal, and in the evening when I did up anything to eat, I used to go in just to get warm.

We used to amuse ourselves by playing checkers and cards, we also had a small library sent out from England. I can truthfully say that these books were much appreciated by all, and were very much in demand.

(To be Continued Next Week)

The new heating system replacing the outfit that went out of business a couple of months ago, has been installed by A. Urquhart and company, and the store now boasts of an almost tropical heat. The new store heater has sufficient capacity to keep the store heated more comfortably than ever before.

Judicial Sale of Farm Property
Pursuant to the judgment and final order for Sale there will be offered for sale by Public Auction with the approval of a Judge of the Supreme Court of Alberta, by Clarence F. Dams, Esquire, at the Post Office of the Village of Bentley, in the Province of Alberta, on SATURDAY, the 17th day of April, A. D. 1920.

The said property is situated ten miles from the Village of Bentley. The land consists of black loam and clay, about six to twelve inches deep, and the sub-soil is clay.

There are about eight acres broken, and the remainder covered with timber. The building on the said property is of a log house.

This property is offered for sale subject to a Reserve Bid which has been fixed by a Judge.

The purchaser is required to pay a deposit of ten per cent of the purchase price to the Vendor's Solicitor at the time of the sale, and the balance is to be paid into Court within sixty days without interest.

In all other respects the terms and conditions of the sale will be the standing conditions of sale of the Supreme Court of Alberta.

Further particulars can be obtained from the Vendor's Solicitor, A. M. MacDonald, Lacombe, Alberta.

Dated at the Town of Lacombe, in the Province of Alberta, this twelfth day of March, A.D. 1920.
E. C. Hoger, Clerk of the Court.

"In the Matter of 'The Railway Act' and the Matter of the Right-of-Way of Lacombe and North-Western Railway Company Through A Fractional Portion of the North-East Quarter of Section Twenty-Three (23) Township Twenty-Four (24), Range Twenty-Four (24), Meridian."

To Harry Henry Fry, Los Angeles, California, U.S.A.

Takes notice that Lacombe and North-Western Railway Company requires for the purpose of the railway all your estate and interest in the lands hereinafter described, namely: All and singular the land required for right-of-way being thirty-three (33) feet perpendicularly distant on each side of the centre line of said right-of-way of said Lacombe and North-Western Railway, as said centre line is shown upon the location map or plan of the said right-of-way in the Land Titles Office for the North Alberta Land Registration District as Plan No. 222 (C.F. containing 1.15 acres more or less, through that portion of the North-East Quarter of Section twenty-three (23), Township forty (40), Range twenty-eight (28), West of the Fourth Meridian, described in duplicate certificate of title No. 7-16.

AND TAKE NOTICE that the authority intended to be exercised with regard to the said land required for right-of-way as aforesaid, is the taking of all outstanding interests in the said land hereinafter in fee simple for the purpose of construction, maintenance and operation of the said railway. Company's railway, the said interests consisting of the fee simple to the said lands required for right-of-way as aforesaid.

AND FURTHER TAKE NOTICE that the Lacombe and North-Western Railway Company is ready and willing and does hereby offer to pay the sum of \$30.00 per acre as compensation for all outstanding interests in the said lands required for right-of-way as aforesaid, and for any damages caused to you by the exercise of the said Company's powers or authority.

AND FURTHER TAKE NOTICE that if you do not accept the said offer, the said railway nominates and appoints Oluf Inkster of Edmonton, Alberta Land Surveyor as its arbitrator.

DATED at Edmonton, in the Province of Alberta, this 22nd day of March, A.D. 1920.
Lacombe and North-Western Railway Company, by its solicitor,
JOYD BEHREID,
of Short, Cross, Maclean and McLeod, Merchant's Bank Building, Edmonton, Alberta.

Auction Sale The Farmer-Banker Alliance

Horses, Cattle, Implements, Etc.
Purveyed with instructions from the Owner, we will sell by Public Auction at his farm N.W. 35-36-24, S. 4. Five miles south and one and a half mile west of Clive, Nine Miles west of Alton.

Friday, April 2, 1920

Commencing at 10.30 a.m., the following described property:

HORSES

1 matched team black geldings 8 and 9 years old, wgt 3200 lbs.
1 team brown mare 7 and 8 years old, weight 2600.
One black gelding 9 years old, weight 1000.
One black gelding 8 years old, weight 1300.
One brown mare 7 years old, weight 1200.
One brown mare 10 years old, weight 1100 lbs.

One bay mare 8 years old, weight 1100 lbs.
One brown mare 8 years old, weight 1100 lbs.
One gelding 9 years old, wgt 1100, 4 yearling colts.

CATTLE
15 milk cows some fresh and balance to calve soon.
3 range cows.
3 heifers 2 years old.
8 steers 2 years old.
6 calves 1 year old.
One pure-bred Hereford bull 3 yrs. old.
One pure-bred Shorthorn bull 3 years old.
1 pure-bred Shorthorn Bull 10 months old.

Swallowing hiders.
A large collection of whittlers, neck-yokes, and other articles too numerous to mention.

MACHINERY
2 Massey Harris binders 8 ft. cut; 1 John Deere binder; 1 Massey Harris 2 horse binder; 1 Massey Harris 2 horse seed drill, good as new with grass seeder; 1 Massey Harris 20 shoe drill; 1 McCormick mower with extra knives; 1 McCormick Hay rake; 1 Dalm Hay Stacker; 2 Dalm hay mowers; 1 John Deere plow; 2 spring tooth harrows; 1 John Deere disc; Cockshutt 14 in. Gang plow; 1 John Deere 14 in. Gang plow; 1 brush breaker 16 in; 1 16 in. sulky good as new; 1 Massey Harris 16 ft. 1/2 in. Wooden roller; 2 sets good hsh clevises; 1 set hsh bob; 4 wagons, two boxes; 1 grain tank 125 bu.; 1 buggy with pole; 1 democrat buggy with pole; 4 good hay racks; 1 sets good work harness; 13 horse-power engine with grinder and saw complete; 2 beds complete.

Notice to Creditors and Claimants
In the Estate of Allan Humphrey Moore, deceased.
Notice is hereby given that all persons having claims upon the estate of the late Allan Humphrey Moore, who died on or about the 1st day of December, A. D. 1919, are required to send to the undersigned solicitors for the Administrator of the estate, by the 15th day of April, A. D. 1920, a full statement, duly verified, of their claims and any securities held by them, and that after that date the Administrator will distribute the assets of the deceased among the parties entitled thereto, having regard only to the claims of which notice has been so filed or brought to their knowledge.

Dated this 22nd day of March, A.D. 1920.
Payas and Graham

HOCKEY
A very fast game of hockey was played last Saturday night, between the Lacombe High School Girls, and the Public School Boys, in which the Public School Boys (McArdle's Invincibles) got beaten. The ice was in a very waxy condition, and the game was more like water polo than hockey. It was a lucky thing for the boys, that the ice was poor, because if it had been good, the girls would have run up an uncountable score. The boys were handicapped to the extent of having to skate backwards, it being an offence to skate forward. The girls played fine, their stick handling, and combination play being a treat, and on frequent occasions, one of them would make a rush, and would get clean through, but as they could not shoot hard enough, the boys' goalkeepers would stop them from scoring, (some times). The score was 3-1 in favor of the H.S. Girls, and the stars of the game were, Muriel, Northcott, May McLeod, and the girls' goalkeepers. Owing to lack of space, we will not be able to give a more detailed account of the game.

At a meeting in the office of A. Macmichael, on Wednesday night last, a Baseball Club was organized. The officers for the year were elected as follows:
Hon. Pres. Dr. Simpson.
President A. Macmichael.
Vice-President C.B. Halpin.
Secretary Treasurer, L. Padden.
Mr. Pries, acted as chairman of the meeting.

An executive committee was chosen, to raise funds, etc., for the needs of the Club. L. Danner, Benson, and Pries, also Macmichael.

It was decided to get the meeting, get Membership Tickets printed and to sell the same at \$1.00, this money to be used for uniforms, and minor expenses of the Club. The members of the executive will be around to see you, and if you want to help, this thing along, buy a Membership Ticket. Lacombe has some of the best material on the line for a good baseball team, and without a doubt will deliver the goods, and as a baseball club, or any other organization needs money to get started, for uniforms and such, it is essential that you buy a ticket.

A meeting in the interests of this organization will be held in the Town Hall on March 31st and business of importance will be dealt with, so turn out. Don't forget the date Wednesday March 31st.

AUTOMOBILES
USED CARS FOR SALE
1. McLaughlin, 4 cylinder, New Paint.
1 Chevrolet, 1918, New Paint.
1 Chevrolet 1918, Good Cars.
1 Chevrolet, 1919, New Paint.
1 Chevrolet, 1917, A. Barrell.

POULTRY RAISING AS A VOCATION

Although the value of poultry and poultry products in the three prairie provinces of Canada amounted to more than twelve and a half million dollars in 1919, it cannot be said that the poultry industry in this country is a thriving one more than a side line with the majority of farmers. The high prices paid for eggs during the last few years, however, has caused farmers to turn their attention to the possibilities of poultry raising as a means of increasing their income.

This is shown by the interest which is being taken in the footings of the agricultural colleges and the Dominion and Provincial Governments are producing and distributing information for advice regarding poultry, and are endeavoring to put into practice the valuable information made available by the agricultural colleges and experimental farms.

The fact that is being done in the Dominion Experimental Farm at Lethbridge, Alberta is characteristic of what similar institutions throughout the country are doing, and indicated the enormous profit possibilities in the raising of poultry in the prairie provinces after, if the profession is taken seriously. At this farm a return of about \$200 a week is being received from the sale of 220 hens which require but little of the time of one man to look after them.

The value of the poultry at the Dominion Experimental Farm is measured by the number of eggs in hen days. Many of the best birds are not sold until they are high in the estimation of a judge at a poultry show. But they are not sold until they are high in the estimation of a judge at a poultry show. But they are not sold until they are high in the estimation of a judge at a poultry show.

Mr. Crossland claims there is a great secret in setting such results to prove intelligent selection of improved laying strains. The birds

are barre' plymouth rocks. In 1918 Mr. C. A. Crossland, who is in charge of the poultry section at the experimental station at Lethbridge, reported about 100 hens. Of these 40 hens which had laid more than 150 eggs during 1918, included 17 which produced 800 and more, were selected. These were mated with cockerels of a good egg producing strain, and out of the hatchlings of last spring 220 pullets were taken. These 220 birds were divided into flocks of fifty-five each and penned together in the fall.

One lot was placed in the pen last October, a month earlier than the rest. These fifty-five hens netted a profit of \$113 each during the month of December. They laid 1,083 eggs—more than ninety dozen—which were sold wholesale at the 4c. dozen. Every hen laid during the month. One pullet laid thirty eggs in the thirty-one days. Many others laid twenty-five and twenty-six eggs in the same period. The average number of eggs laid by the pullets in this pen was twenty-five and one-half. This was not a very high average, but it was somewhat less than twenty eggs each.

The pens for the other birds were not ready until the middle of November, and the results in December were not so good. These pens, as in the one just mentioned, they were, however, very satisfactory. These pens were doing much better than the first, and in January fourteen dozen eggs were being taken from the four pens daily. This was not at all a bad record for a first year. Mr. Crossland claims there is a great secret in setting such results to prove intelligent selection of improved laying strains. The birds

LINCOLN

Mr. R. J. Fox has gone to Man-
itah on business and expects to be
away about twelve days.

There is wonderful activity among
Eadie's Corner these days. A steady
stream of teams hauling logs are pour-
ing into the mill yard every day. To
hear the mill whistle whirling round
one of the city. Lincoln district has
a real live industry and we are by no
means dead as some people in the ad-
joining district said we were.

Mr. Eadie expects to pull out from
his place and make a start with his
saw mill on the Walker property very
soon. It does not take him long to
run off quite a large pile of lumber as
he cut on an average of one thousand
feet in a hour. This is a pretty
good output from such a small mill,
smaller than some of us who have lived
in a lumber country.

Mr. H. Jewell and family have re-
turned after having spent the winter
visiting friends and relatives in the
states. Mr. Jewell is still keep-
ing up with the chores but has a more
satisfied smile on his face now he does
not have to do his own cooking.

Mr. Stanley Crowe has sold his farm
to Mr. Grant a returned soldier. We
are sorry indeed to see Mr. Crowe leav-
ing the district but we also welcome
Mr. Grant.

Mr. Spink has taken up residence
permanently on the L. Kilde property
which he purchased last fall.

An event of considerable interest
took place last week. Mr. Ole Larsen
arrived here, spent the week with Mr.
C. M. Carter, Mr. Larsen was not alone
but brought with him a wife, he having
been married to a Mrs. Harmon, of
Alta. To say the residents were
surprised is putting it very mild. It
is a lesson for the young men in the
community and we advise them to hus-
tle around a bit.

Mr. Alex Wilson is not going to be
behind this year if he can help it. He
arrived home with a brand new seeder
and is busy setting it up ready to
start right in.

The Programme, Box Social and
Dance held in the Lincoln school house
was a most brilliant success in every
way. A very large crowd turned out
for the affair, the school being packed
to the doors. The children took their
parts very well indeed and the whole
affair went off without any unneces-
sary delay. Mrs. S. Taylor, Mr. Paul
Evans, Mr. Dobbs, each sang a solo
and a number of young ladies sang
"Star of the East". The assistance of
these people was much appreciated.

The dialogue "Striking the Blow" was
very amusing but we hope the un-
married ladies in the district will not
adopt the resolution of Miss Betsy
Trotter, if they do the men will surely
have something to contend with. Miss
Kinley is to be congratulated on the
success of the entertainment, and it
also proves to us that we have a teach-
er who has patience and tact and
who has her feet in her work.

The bachelors were auctioned off by Paul
Evans and Mr. Frankling, the bidding
was brisk, one hundred and forty-one
dollars and seventy-five cents being
the proceeds of the sale. The amount
realized will be used by the Board of
Trustees for the improvement of the
school in whatever way they deem
most necessary.

Mr. Thos. A. Dutton
acted as chairman during the first part
of the evening. Mr. Wm. Dool man-
aged the floor whilst the dancing was
on, which was carried on until the
"wee sma' hours." Everybody
went home tired but apparently well
satisfied with their evenings entertain-
ment.

Mr. A. Swanson who arrived here
some time ago from Saskatchewan has
rented the Nels Nelson property, but
we understand it is "Mr. Swanson's in-
tention to start erecting buildings and
improving his own land which he re-
cently purchased adjoining Mr. Eadie's
land.

Women's Institute Notes

The women's institute will hold a
tea and sale of home baking on Sat-
urday 3rd. The members are all re-
quested to help with this. If anyone
of the members have anything for
the sale and find it impossible to get
in on Saturday they could leave it
with Miss Poole.

3 Members of our branch W.I. at-
tended the convention at Edmonton
this past week. The convention was
splendid. Not as many speakers as
usual, but more time was given to dis-
cussion on topics of interest to every
branch. The minister of education
told what their department was doing
to help the schools in rural districts.

Be sure and be at the next meeting
on April 10th and hear this paper. It
will be well spent time.

The star of the convention was Miss
Rose Morgan of the Columbia Univer-
sity, New York City, N.Y. She was
there to tell us about Community sing-
ing. Mrs. Morgan has been sent to
many different countries to learn the
songs of the people, as she calls them,
"The Songs that Live." Mrs. Morgan
has little use for the present day mu-
sic. She liked our Canadian songs
and urged us to sing them more. She
would sing to please you, your fa-
vorite song, whether she had the words
or not. She seemed to know them.
She urged the women to sing at ev-
ery meeting whether there is a piano
or not and to sing the old songs that
live.

While attending the convention the
writer had the pleasure of meeting the
delegate from Southern Prairie, to
whom we sent our boxes of clothing to
help in the relief work in the South.
Mrs. Aldous said we cannot thank you
Lacombe women for those splendid
boxes. There were so many lovely
coats and boots and shoes and other
warm things we just filled out fam-
ilies and especially the school children.

These articles were sent early in Oc-
tober and November and we pass this
on to the ladies outside our institute
who helped with this good work. We
hope to see these same women at our
next meeting, April 10th to hear of
the very splendid work accomplished
by our Alberta W. I. in 1919.

Local Taxation

Changes in the Alberta Government
Supplementary Revenue Act, are start-
ling enough to cause urban centres
some alarm. That change which con-
emplates a doubling of the tax—
from one to two mills—in urban munici-
palities, is something the government
will have to give ample explanation
of, and justification for, before the
municipalities will yield gracefully
to it.

Admitting that government must
have revenue and that in the absence
of control of its natural resources, it
must plan more or less direct systems
of taxation, there will be much ques-
tion as to the legitimacy of this new
direct levy on the people of the towns
and cities. What is the reason for
it? Is a question that will be asked
many times, and the government will
have to give a satisfactory answer be-
fore protests cease.

When the Supplementary Revenue
Act was first framed it was imagined
it would last only till the end of the
war. That was a foolish idea and in
view of economic events since that
time the people have realized that this
special source of revenue would be re-
tained of necessity by the government.
But the doubling of the tax is another
matter entirely. Alberta ratepayers
are facing heavier taxation this year
because of municipal needs of an im-
perative sort. This further addition
of a mill to their load, proposed by
the provincial government will not be
well received.

Important Notice!

Department of Finance Dominion of Canada
Your Income Tax Return Should be Filed at Once!!

All persons residing in Canada, employed in Canada, or carrying on
business in Canada, are liable to a tax on income, as follows:

Every unmarried person, or
widow, or widower, without de-
pendents as defined by the Act,
who during calendar year, 1919,
received or earned \$1,000 or more.

All other individuals,
who during calendar year
received, or earned \$2,000
or more.

Every corporation and
joint stock company, whose
profits "exceeded" \$2,000
during the fiscal year end-
ed in 1919.

CLASS 1
Forms to be used in filing
returns on or before the
31st of March, 1920.

Trustees, executors, ad-
ministrators, agents and
assignees must use Form T-3.

Employers making a
return of the names and
amounts paid to all direc-
tors, officials, agents or
other employees must use
Form T-4.

**Corporations and Joint
Stock companies** making a
return of all dividends and
bonuses paid to shareholders
and members, during
1919, must use Form T-5.

NOTE: Individuals completing par-
tials must file returns in their in-
dividual capacity on Form T-1 or T-1-A.

PENALTY
Every person who is required
to make this return, who fails to
do so within the time limited,
shall be subject to a penalty
of \$10.00 for each day
during which the default
continues—and all such pen-
alties shall be assessed and
collected from the person
liable to make the return in
the same manner in which
taxes are assessed and col-
lected.

Address of Inspector of Taxation for this District:
CALGARY, ALTA.
R. W. BREADNER, Commissioner of Taxation.

Time Limit

All persons in Class 1, as
shown hereon, must file on
or before the 31st of
March, 1920.

All persons in Class 2, as
shown hereon, must file on
or before the 30th of
April, 1920.

General Instructions

Obtain Forms from the
Inspectors or Assistant
Inspectors of Taxation, or
from Postmaster.

Read carefully all in-
structions on Form before
filling it in.

Pre-pay postage on
letters and documents for-
warded by mail to Inspec-
tors of Taxation.

Make your returns
promptly, and
avoid
penalties

CLASS 2

Forms to be used in filing
returns on or before the
30th of April, 1920.

All individuals other
than farmers and ranchers
must use Form T-1.

Farmers and ranchers
must use Form T-1-A.

Corporations and Joint
Stock companies must use
Form T-2.

PENALTY
Every person required to
make a return, who fails to do
so within the time limited,
shall be subject to a penalty
of twenty-five per centum
of the amount of the tax
payable.

Any person, whether taxable
or otherwise, who fails to
make a return or provide
information duly required
according to the provisions
of the Act, shall be liable on
summary conviction to a
penalty of \$100.00 for each
day during which the default
continues—and that any
person making a false state-
ment in any return or in any
information required by the
Minister, shall be liable, on
summary conviction, to a
penalty not exceeding \$10,000,
or to six months' imprison-
ment or to both fine and
imprisonment.

Bentley News

The Bentley players made their debut on Friday night in the Opera House when they put on a Festival of Fun which included a one act farce, "Box and Cox" and a two act farce, "My Town Next". Mrs. P. E. Thorpe sang "Kilbuck" in a very pleasing manner, and Mrs. Worland Nicholson made her first public appearance when she sang "When the Great Red Dawn is Shining" and "Times Roses". Mr. Louis Bjornson and Mr. E. J. Packer entertained with music between acts. Messrs. F. W. Thorpe and P. E. Thorpe put on a Vaudeville act between plays which kept the audience in roars of laughter. The best part of their act was the original song featuring hits on local people.

The plays were well acted and the players deserve much credit for their enterprise. There was not a very large crowd out, but the play was repeated on Saturday night and with the added attraction of a dance by the Curling Club. There was a very good turnout. The cast was as follows:

Box and Cox
Box, a printer Frank W. Thorpe
Cox, a hatter Frank W. Thorpe
Mrs. Bouncer, a landlady, Mrs. E. J. Packer.
My Town Next:
Taraxicum Twitters, a druggist, F. W. Thorpe.
Tom Trap, a drummer, Joe Danon
Tim Bolus, drug clerk Bert Thorpe
Wheatear, a farmer Blaine Hutton
Lydia, Twitters wife Nita Nicholson
Cecily, her niece Florence Millar
Peggy, a housemaid, Mrs. E. J. Packer
Mr. F. E. Vaughan has moved his harness and shoe shop onto McPherson street next to the post office.

Mr. J. G. Evernden is visiting in Calgary this week.

There was a large turnout of men and women to the joint meeting of the U.F.A. and the U.F.W.A. on Saturday March 13th. The chief item of interest was the report of the convention given by Mrs. J. B. Dane. This was quite exhaustive and very interesting. Many things of importance were discussed at the meeting. It was decided to arrange a competition between the two branches for a membership drive.

The next meeting will be held on Saturday afternoon, March 27th. Mr. Parkinson, who purchased the Farm of Mr. W. H. K. Donaldson at Rainy Creek last fall, has moved into his new home.

March 15th brought the thermometer down to 15 below zero. The fellow who bet the farmers would be on the land by March 15th, lost his bet, but never mind, we will be looking out for cool spots in August just the same. Blindman Valley never had a crop failure yet.

The regular meeting of the Sunset Local No. 51 was held in the Sunset Hill Schoolhouse on March 12th. The president, Alfred Haastad, was absent in Calgary, and the Vice-President, Mr. H. P. Hansen took the chair. There was a good turnout and several new members were added to the roll. Sunset Local has now 26 members and are making a drive for 50 members before next meeting on April 10th. Miss Elsie Maurer and Mr. J. L. Robinson were appointed Captains and have selected 10 partners each to help. Every farmer in the district will be visited and given an opportunity to join. The side which has the least success must prepare a program and give an oyster supper. Watch Sunset Local grow.

The re-opening of the Bentley Community Church will be held on Easter Sunday when Rev. W. Hollingsworth, S. T. L. of Lacombe, chairman of Lacombe District and Secretary of the Alberta Conference of the Methodist Church will conduct the service at 7:30 p.m. On Tuesday evening, April 6th the Ladies Aid will give a supper in the Opera House and a grand concert in the Church at 8 p.m. Be sure and keep the date open.

Messrs. H. A. Malcolm and L. M. Gaetz of Red Deer are making a tour of the U.F.A. in this district addressing meetings in the interests of the Farmers Political Movement. On Monday night they spoke at Sunset Hill school house. Owing to the bad roads, there was only about 15 present, but reports are that the addresses were excellent. There will be an opportunity for all to hear these men in Bentley on Thursday afternoon, March 18th, at 2 p.m.

Mr. Dee R. Finch sprung a surprise on his friends when he returned on Monday with his bride. We wish them long life and happiness.

Rimby News

Rimby now has a lawyer.

Mrs. Glen Chiles and son are on the sick list.

Miss Mary Schrader has left for Calgary.

Mrs. Holt and family are moving in to the Curry house soon.

Mr. Wilton of Rimby made a trip to Calgary on Tuesday last.

Ferguson of Calgary was a visitor in town last week.

May and Aubrey Scott are on the sick list this week.

The schools, picture shows, and churches reopened this week.

Mr. Liska, and Mrs. Lee of Iowa, journeyed to Calgary on Tuesday last.

Mr. R. Warren has been cutting and hauling logs for Fred Kimer.

C. Mobes has been hauling lumber for Mr. Hanson of Rimby.

C. Winfield Matheson, barrister and solicitor, has opened a law office in Rimby.

Carl Hanson has been around with his wood saw, and has been doing some smart work.

Mrs. and Miss Parker are in Rimby now and will conduct a Millinery shop here.

John Bentley has purchased a lot adjoining Clyde Elzy's property in Rimby from The McGillivray Realty Co. Sorell and Peabody's implement sheds are nearing completion, and a complete stock of machinery is expected to arrive any day.

C. Winfield Matheson, wife and family, have arrived in Rimby where Mr. Matheson has opened up an office for the practice of law.

Mr. H. L. Crow purchased a lot from McGillivray Realty Co. The lot is next to the Hewitt Carpenter Shop, and Mr. Crow will put up a harness and shoe shop.

Mr. W. E. Hall of Ponoka was in Rimby this week with the view of locating here, but owing to the lack of housing facilities he did not stay.

The deepest snowfall this winter was registered on Saturday and Sunday last, fully six inches falling in as many hours. We hope this will be "The Last Snow of Winter."

Box Social at Monte Vista was a huge success, the sum of \$52.00 being raised. This sum makes the last payment of the Piano purchased by the community and installed in the Monte Vista School until such time as a community hall is erected.

V. A. McCarty of Stettin, S. C. Hartley, of Edmonton, O. B. Moore, of Edmonton, W. M. Duncan, of Edmonton, R. Youngman, of Calgary, and D. C. McDonald of Calgary were among those outsiders in Rimby this last week.

The town hall was crowded on Wednesday evening on the occasion of the boxing contest between Sgt. Burni and Fred Becker, the Rimby wrestler and boxer. The preliminaries were very interesting contests, and well worth seeing. The main bout was a swift one from start to finish, both men striving for mastery, and it went six rounds. In the sixth round Becker broke his hand and had to quit the contest, the referee giving the decision to Burn. These exhibitions are not frequent enough in this part of the west, and there is no better or more manly sport than boxing. We hope that more events of this nature will be promoted.

No there were no Highwaysmen concerned in the hold-up of the Peanut on Sunday last. It was all caused by an snow storm that occurred on Sunday morning and Saturday night. Old Mac, the Conductor, Ticket Agent, Brakeman, Pullman Porter, and Switchman had some time shovelling away the drifted snow from the right of way, but at last, after many hours of toiling and perhaps the use of language, that is never heard in school, the train was able to proceed on its way to new Rimby or the Lower town, exactly 30 hours late. Fiddler informed us that no warnings of the snow were given, and that the snow was carried by the crew, but that the snow was the only thing that held them up. It would appear that the engine and cars had a drop of squirrel whiskey before leaving Bentley as they indulged in jumping the track at every favorable opportunity.

PRESIDENT BEATTY ON Y. M. C. A. WORK.

In a foreword to an attractive little pamphlet issued by the Railway Y.M.C.A. of Canada, Mr. E. W. Beatty, President of the C.P.R., pays a tribute to the work of this association. "The high value of the work," says Mr. Beatty, "of the Young Men's Christian Association in the interests of men and boys has come to be generally and properly recognized, particularly on account of its efforts and accomplishments on behalf of our soldiers during the recent world war. Among the various spheres of the Association's activities not the least valuable is the work of the Railway Branches which minister to the intellectual, the social, the moral and the physical needs of railway men irrespective of race or creed."

"The inception of this work on the Canadian Pacific Railway dates back when the building at Revelstoke, B.C., was erected, and so well satisfied were the Company's officials that an additional branch association has since been established. These provide home surroundings and comforts for men in train service when away from home and to many employees located at outlying points they afford the only home facilities that are available to them."

"It is not only that good meals and clean beds and baths are provided but the educational advantages, the recreational facilities and the opportunities for social intercourse amidst wholesome surroundings must necessarily contribute to the well being of the men and benefit the community in which they live, and the Company with which they are employed."

"The eminently satisfactory results of this work on the Canadian Pacific lines in the past for which I desire to express my admiration and appreciation, have without doubt, been achieved through the earnest and cordial co-operation of the Company's employees with the Association's officers and staffs, and with the continuance of their united efforts the future success of the work can, I feel sure, be confidently entrusted to them."

The Railway Y.M.C.A. provides 140,000 beds to railway men and served 328,000 meals in 1915. Its buildings are valued at \$580,000.

FOR SALE

Absolutely new: One 8 h.p. Ohio Gasoline engine with heavy subbase. Owing to the City having put in day current we expect to use an electric motor and are, therefore offering this A 1 engine reasonable. Address communication to the Canadian Junior College, Lacombe, Alberta.

Only One Way to Bequeath Your Knowledge and Ability

Your business ability and financial acumen are a bulwark for your wife and children, while you live.

Unfortunately you cannot bequeath these things to them with the tangible property you have accumulated for their benefit, and your heirs may not be able to "carry on" as you hope they will. But there is a way to project some of your personality into that future in which you have no living part. Have your Solicitor draw your will appointing The Trusts and Guarantee Company, Limited, as your Executor. You will then be assured of the careful, impartial carrying out of your wishes, and your heirs will be protected by this strong experienced perpetual fully authorized and equipped Company for this special work.

Consult us now about this important matter.

The Trusts and Guarantee Company Limited

C. F. DAMRON, Auctioneer

ANDREW GILMOUR PROTESTS AGAINST MORE TAXATION ON FARMING INDUSTRY

Edmonton, March 17.—The decision of the government to raise more money by increasing the supplementary revenue tax, came to Mr. Andrew Gilmour, M.P.P. for Lacombe, on Wednesday night. Mr. Gilmour has for the past three years argued that the farmer gets the worst of it in taxes all along the line, compared with doctors, lawyers, real estate men, loan agents and professional men who may not be large property owners.

In attacking the incidents of the tax Mr. Gilmour said that it bore heavily on the people trying to build up the province, the farmers and workmen owning homes, while persons living in rented quarters paid nothing that a wholesale lumber dealer might have a business of \$10,000 per year and live in a rented room, and pay nothing under this tax. The same applied to doctors, lawyers, and professional men, even the ministers themselves, unless they were "fortunate" enough to own property. He said a business man might put up a good block, a credit to the city and be taxed under the act, while a Chinese man might rent a tumble-down shack, do an equally big business, and pay nothing. He suggested that "even firms like the M.P.s. company and other big concerns doing business throughout the province would pay less under the tax than farmers farming in a large way. People could come and go, make money in the province, and pay nothing under the tax. Mr. Gilmour went on to reiterate some of his remarks, adding that he did not think it was right that the province should tax the farmer and let "millionaires" escape.

The premier challenged the latter remark, declaring that Mr. Gilmour should point out some specific instance of how "millionaires" could escape. The Lacombe representative cited a

one of a millionaire coming to town renting an office in a building, living as a hotel and sending his money out. It would pay nothing under the supplementary revenue tax.

The Milton Memorial Tablet will be unveiled next Monday evening, 29, in the school. Capt. Robert Pearson, M.L.A., will be present and give an address. Prof. Tynche will be the address. Choir will furnish the musical part of the program. The Milton Ladies Club will provide refreshments.

Dr. A. M. Scott, Superintendent of schools, Calgary, will give a lecture in the Masonic Hall on Friday evening, March 26th, under the auspices of the "Lacombe Citizens' League." This lecture by a prominent educationalist should be appreciated by all the thoughtful people of Lacombe and district. Don't forget 8:30 Friday Night. All welcome.

The regular meeting of the Arborale U.F.A. will be held at the home of Mr. and Mrs. F. H. Taylor, Monday evening, March 29th, Box 50, paper, and a good programme. Don't fail to attend this meeting.

The premier challenged the latter remark, declaring that Mr. Gilmour should point out some specific instance of how "millionaires" could escape. The Lacombe representative cited a

GUARD AGAINST THE 'FLU'

Serious Outbreaks of Influenza all over Canada

GOOD HEALTH IS THE SUREST SAFEGUARD

"FRUIT-A-LIVES" Entirely Vegetable and Vitality and Tonic Food and Against Disease

There can be no doubt that the situation regarding the spread of influenza throughout Canada is one of grave concern. It is quite true that the number of cases does not constitute an epidemic such as caused the suffering and sorrow during the terrible days of 1918. Yet there is no disputing the fact that everyone should be on their guard against the disease.

In Montreal alone, from January 20th to February 21st, over thousands of cases of influenza were reported, and 139 deaths from the disease were reported to the Health Department.

If the outbreak had come at the beginning of the winter instead of the end, we might reasonably feel that the very cold weather would check the spread of the disease. But, as it is, it is a real source of worry, there is grave fear that an epidemic may occur. For spring, with its sunnier weather, its constant changing from cold to warm and back again, is a perfect source of coughs and colds, influenza and pneumonia.

The best protection, in fact, the only safeguard against the 'Flu', is GOOD HEALTH. Those who are not as well and strong as they should be, those who are underweight, those who are "run-down" through too much work, sickness, should build up at once. What they need is a blood-purifier, a body-builder, a strength-giver, like "Fruit-a-lives", the wonderful fruit medicine.

"Fruit-a-lives" regulates the kidneys and bowels, causing these organs to eliminate waste regularly and naturally as nature intended. "Fruit-a-lives" keeps the skin active, and insures an abundant supply of pure, rich blood. "Fruit-a-lives" tones up and strengthens the organs of digestion, sharpens the appetite, brings restful sleep and removes the vitality of the nervous system. "Fruit-a-lives" contains what is known as an ideal tonic should have to purify the blood, to build up strength and to bring in vigor, and thus the whole system would be in the best possible condition to resist disease.

Now is the time to build up your health and strength, not only a protection against the ravages of influenza, but also to protect you against "spring fever" and the inevitable reaction which comes with the appearance of warmer weather. Get a box of "Fruit-a-lives" today and this fruit medicine keep you well.

"Fruit-a-lives" is sold by all druggists, or sent by mail for \$2.50, trial size 50c, or sent postpaid on receipt of price by "Fruit-a-lives" Limited, Toronto.

William S. Hart
"Breed of Men"

Breed of Men
A big gambling house scene in setting that is the last word in Western realism, engrossed the attention of William S. Hart and his company during the filming of Hart's new Art-craft picture, "Breed of Men" which will be presented at the Rex theatre next Friday and Saturday, March 26 and 27th.

In the story there is an episode of a crooked hand dealer, who to get Hart as Careless Comedy under his control, causes a professional faro player to fleece the boss purchaser of all he possesses, even to his "flip along heaven." The man who portrays the gambler is one who had actually seen such service in the West in early days. What he doesn't know about cards isn't worth telling. In the big set are roulette tables, and wheels, faro layouts and all paraphernalia of the gambling den of the frontier.

The scenes taken in Chicago at the stockyards are excellent in every way and that this will be one of Mr. Hart's most thrilling dramas of the frontier is the belief of those who have seen it in the making. Screen Orama is the leading woman. Prices 35c. and 25c.

Geese For Sale
A number of pure-bred geese and ganders for sale. Apply to Mrs. John McNab, Box 124, Lacombe, Alt. M24-3c.

Leave your orders for Hot Cross Buns with Mrs. R. C. Mason, next to Furniture Store.

For Sale
Baby chicks and hatching eggs from purebred winter layers. S.C. Dark Rhode Island Red. Eggs \$2.50 per setting of 15. Mrs. M. S. Bentley, Alberta. M24-3p.

W. D. Reid's Sale of Hereford Cattle

All trains will be met and buyers taken to place of sale free of charge. Catalogue on application to Owner or Auctioneer.

C. F. DAMRON, AUCTIONEER.

Bolshevists Now Serious Menace To Germany

Berlin.—Eisen has surrendered to armed workmen after violent fighting in which it is estimated that 300 persons were killed.

It is reported that communists have occupied five railroad stations to the east of Berlin and that troops are being rushed thither in armored cars.

Lo-don.—The Exchange Telegraph company issues a sensational report that a telegram message from Berlin says that a hundred persons were killed in the fighting at the Brandenburg gate in Berlin and that the dining room of the Hotel Adlon was completely destroyed by machine gun fire.

According to the same authority, the Russian Bolshevik forces are advancing from the Russian frontier.

Copenhagen.—One hundred persons were killed and more than 200 others wounded in various quarters of Berlin, according to advices from the German capital.

It is reported that the German government has asked the allies to permit it to send German troops to put down Bolshevikism in parts of the neutral zone which was established by the peace treaty, and in which the Germans were not to have troops.

Ebert Again in Control

Expected Attack on Berlin By Several Thousand Workmen Failed.

Paris.—Gen. Von Seeckt, in command of the troops loyal to the Ebert government, is in absolute control, the advices say. Most of the troops of Gen. Von Seeckt have already left Berlin.

The expected attack on the capital by several thousand workmen failed to materialize.

Berlin.—The Ebert government is again in control in Berlin. Vice-Chancellor Schuler, in whose hands the sudden retirement of Dr. Wolfgang Kapp temporarily placed the administrative power, and Gustav Noske, minister of defense, are engaged in bringing about order in the city and restoring activities to their normal basis. Regular troops, loyal to the Ebert regime, are guarding the streets and detachments of them are tearing down wire entanglements and barricades which the revolutionary soldiers erected in positions. In this connection there was an unfortunate accident, where in the firing of a mine to destroy a barricade at Kottbus, the explosion killed twelve persons and injured 28.

Have Their Own Troubles.

Washington.—Hastening to clear the way for final action on the peace treaty, the senate choked off a Irish question by tabling, 54 to 25, a proposal to declare by resolutions that Great Britain should proclaim Ireland free.

Battery Wiped Out.

London.—An artillery battery at Werl, Westphalia, has been wiped out by Spartacists, according to an official Berlin dispatch. The Spartacists killed all the officers of the battery and nearly all the men, the dispatch says.

Toronto.—Sir Sam Hughes, former minister of militia, who has been in Wellesley hospital for several weeks suffering from anemia, has left the hospital. He is going south to convalesce.

Britain Reduces Navy Bill, While U. S. Increases

London.—The navy estimates were in the House of Commons program. They are down nearly one-half the amount voted last year, being a net sum of \$44,500,000, as compared with \$87,000,000. Provision is made for 136,000 personnel, against 280,000. The First Lord of the Admiralty was given full credit in the discussion for his important reductions.

Interesting facts in his explanatory statement are that the capital ship, in the opinion of the naval staff, remains the unit on which sea power is built and that it is proposed to create a naval air wing. The First Lord said that Admiral Jellicoe's report on the dominions' navies will require very careful consideration, and that a scheme could only be settled by discussion with representatives of the dominions in London. Movement would necessarily be slow in these developments.

Assassination of Mayor of Cork

Was Shot Dead By Masked Person Whose Identity Is Unknown

London.—The Lord Mayor of Cork was shot dead at one o'clock Friday morning. The revolver was fired by a masked person, whose identity is unknown. The assassin entered his worship's residence, and after firing the shot, escaped in an automobile.

A half-dozen knocked at the door of the house of the Lord Mayor, Thomas Maguire. Mrs. Maguire opened the door and the men rushed in. Some of them held her while the others ran upstairs to the mayor's bedroom. They took him to the landing and shot him in the chest.

Mrs. Maguire phoned immediately for a doctor and a priest. The mayor died soon after the arrival of the priest. Mayor Maguire, a prominent Sinn Féin leader, was interviewed after the Easter rebellion.

Twenty-seven police and government employees had been assassinated in Ireland since January 1 of last year, according to an official announcement by the Chief Secretary for Ireland, James MacPherson.

The latest previous outrage in the Cork district was perpetrated on the night of March 11, when Constable Scully was shot at Glenmire. Two soldiers and a civilian were killed by gangs in the same vicinity the day before.

British Labor Will Fight

Will Take Up Contest to See Who Shall Hold Power

London.—Winston Spencer Churchill, the war secretary, added fuel to the political conflagration started up by the proposition of Mr. Lloyd George that the Coalition Liberals and Unionists unite into a new party to oppose Labor and the Extremists.

In an article in the Evening News, Mr. Churchill reiterated the premier's call, and characterized the so-called Socialist party as the most dark and formidable menace with which British civilization is confronted.

In the meantime, Andrew Bonar Law, the government leader, is making a speech about upholding the coalition.

Labor has been quick to accept the challenge, and statements indicate that the Laborites are prepared to fight to the "bitter finish" to determine which party shall hold power in the government.

Allies Watch Germany

Lloyd George Says Powers Intend to See That Peace Treaty Is Observed

London.—Questioned in the House concerning a statement of policy with regard to the situation in Germany would be made Premier Lloyd George said that in a rapidly changing situation such as that at present in Germany, the British government does not consider any fresh statement of policy possible.

The Premier said that the matter was under further consideration, and they might rest assured that Great Britain, in connection with the other allied governments, intended to see that the peace treaty was observed.

London.—The Evening Standard says it learns the commander of the Turkish troops in Thrace has refused to accept orders from Constantinople, has renounced the armistice and purposes to establish a government in Adrianople.

The dominions had accepted the responsibility and made heroic sacrifices and were bearing great burdens. They must not be hurried in these naval developments.

Washington.—The United States naval experts say the country is building more warships tonnage than any other nation.

Twelve super-dreadnaughts and six great battle cruisers, aggregating 665,400 tons, are under construction in private yards. They will carry a total of 152 16-inch guns and 24 24-inch guns, and will have the new electric drive engines.

With the completion of this fleet, probably in 1923, the United States will have a battle force of 19 super-dreadnaughts and six battle cruisers in the first line, and eight dreadnaughts and a number of smaller battleships in the second line.

W. N. U. 1000

To Preserve Supremacy Of The British Navy

Long Declares Nation Will Keep Up Power According to Other Countries

London.—Winston Churchill, First Lord of the Admiralty, told the House of Commons that the government was firmly adhering to the traditional policy that the British navy should not be inferior to the navies of the other powers. Then, alluding to the United States as the only country whose navy approached that of Britain in strength, he said that the idea of competition in armaments between the United States and Great Britain was repugnant, adding:

"We hope and believe that if there is any emulation between us, it is likely to be in the direction of reducing that ample margin of naval strength, which we alike possess over other naval powers. This is the foundation of the British naval policy."

Japs Going To South America

In Future Will Avoid the U.S. for Settlement

Honolulu.—Japanese emigrants in the future will avoid United States territory, going instead to South America, according to a Tokyo wireless message picked up by the Japanese Yakuza.

The message, quoted in a statement by M. Nagata, president of the Immigration association of Tokyo, indicated Japanese emigration to South America probably will center in Brazil, where a Japanese colony is planned. Nagata is going to South America in the interests of Japan. It is believed that many Hawaiian Japanese will go to Brazil, according to statements of leading Japanese here.

Bavarian Diet's New Premier

Kahn Will Fill Position Until New Premier Is Chosen in Next Election

Copenhagen.—According to a Munich dispatch received here, the Bavarian Diet has elected Dr. Kahn Premier. Kahn declared himself to be a representative of people's democracy and said he would hold the place for the premier who is to be elected by the Diet in the next election.

The various political groups, the dispatch continues, declared that executive powers had been restored to the civil authorities, that the Imperial and state constitution would be invariably respected, and that the full liberty of officials, workers, and employees to unite would be protected.

Allies Forces On Rhine

American Army of Occupation in Germany Numbers 14,000 Men

Coblenz.—An American army of occupation, numbering 14,000 men, is being issued full field equipment under orders issued before the German revolution. There have been no movements to reinforce any position or any military activity, except those concerned with policing the occupied territory. The allied forces along the Rhine are estimated at slightly more than 100,000 men.

Armenians Ready to Help

Adana, Asia Minor.—The Armenians here have closed their shops and informed the French that they will lend armed Armenians to the relief of Hadjin, northwest of Marash, where the Turks are reported to be terrorizing the populace. If the French do not dispatch troops, the villages of Rono and Yabakalara have been overrun and the Armenian inhabitants have fled to Hadjin.

Sir Robert's Health Is Improving

Ottawa.—Latest information reaching Ottawa as to the health of Sir Robert Borden is to the effect that the Prime Minister is rapidly regaining his former health and recovery is being maintained. It is said he will likely be in Ottawa about May 1. As the season is expected to continue for a couple of weeks after that date, the expectations are that the premier will take his place in the Commons Chamber before prorogation.

Visit Ex-Kaiser

London.—A number of Germans of high rank have visited Amerongen during the last few days, the Central News correspondent at Amsterdam reports. It is not known whether they have been able to communicate with former Emperor William. It is declared, however, that none of them were allowed to talk personally with the former ruler.

Fuel Oil Contracts

Washington.—The shipping board announced that contracts had been signed for more than 12,000,000 barrels of fuel oil for delivery to Alaska and Gulf ports during the next six months. The contract prices ranged from \$1.27 to \$1.36 per barrel.

Vancouver, B.C.—It is reported that the Dominion Department of Public Works will soon commence the construction here of a federal government building, in which to house the various government offices. It will cost \$1,000,000.

W. N. U. 1000

Large Credit Set Aside By Gt. Britain

Will Be Used to Finance Sale of British Goods in European Markets

Washington.—Great Britain has set aside a credit of \$150,000,000 to finance the sale of British goods in various foreign European countries, according to an official dispatch to the department of commerce.

A special credit of \$1,500,000 was made for Poland to defray transportation charges on 48,000 tons of flour from the United States. This dispatches said that reports that Britain had loaned \$400,000,000 to Poland to pay for British tonnage that the new republic planned to purchase had not been confirmed.

Gen. Smuts Secures Majority

Labor Is Said to Be Ready to Support Government in South Africa

London.—The probable final results of South African elections will be: Nationalists, 44; South African Party, 37; Unionists, 27; Labor, 21; Independent, 3.

Several returns are still to come in. The odds slightly favor the Nationalists. The impression grows that the Nationalists and the rank-and-file of the South African Party will effect a compromise between their leaders.

It is pointed out that the country as a whole has overwhelmingly decided in favor of the British connection. General Smuts's threat of another election need not to have been taken seriously. Labor is believed to be ready to give Smuts a qualified support.

The Daily Chronicle thinks the results will certainly be disconcerting for those who hoped to see the forces making for imperial unity rallying around Smuts.

It says South Africa is passing through a phase which almost every country is experiencing—namely, a period of reaction following the sanguine hopes occasioned by the conclusion of the war—but Smuts is in a peculiarly bad position to lead the reaction. He has no doubt forerunner, a temporary setback, and declares himself ready to fight election after election until the people know the truth and vote accordingly, the Chronicle adds.

The Westminster Gazette, foresees a most unstable parliamentary situation. Unless the South Africans and Unionists can command a majority, a deadlock is quite possible.

General Smuts may win, just enough to command a majority. Still, a very small majority, the Gazette says. He clearly faces a most difficult period, it concludes.

Australia Will Stand Fast

Hughes Declares Commonwealth Pledges Thousand Times Greater Than America

Sydney, N.S.W.—Premier Hughes, in a speech here, said the United States was hesitating to accept the covenant of the League of Nations because of a misunderstanding, and because each British dominion had a vote.

"We stand fast by the treaty on the same basis of nationhood as America," said the Premier. "Australia paid a thousandfold greater price than America. We are a small nation, but we are jealous of our liberty and determined to maintain our rights."

Pay For War Prisoners

Alien Enemies Are to Be Paid for Work Done While Interned in Canada

Ottawa.—Prisoners of war interned in Canada are to receive for work done 25 cents per day. Their work consisted chiefly of clearing land, building roads, and at Spirit Lake, Que., a considerable quantity of pulp wood was also made and sold.

In addition, several parties of prisoners worked on the Canadian National railway in Ontario, Nova Scotia, New Brunswick and Prince Edward Island, at a time when labor for railroad work was scarce.

This work was paid for by the railway at 20 cents per hour, less 50 cents a day for prisoners' food, furnished by the railway.

An amount of \$160,000 will be required to pay off the total balance of earnings standing to the credit of all released or repatriated prisoners of war.

Damage by Storm in Nova Scotia

Halifax.—Officials of the Nova Scotia highways board state that damage to the bridges in Annapolis county during the recent floods will be at least \$100,000, and that it will be several months before vehicle traffic can be resumed. Four steel bridges, two wooden bridges, and at least a dozen smaller ones were demolished to a greater or lesser degree.

Act in Union

London.—The Chinese and Japanese governments have agreed to act in union in the Far East, the Harbin correspondent of the London Times, under date of March 2, says. The Chinese government is reliably informed. The Chinese contingent will consist of four divisions and the Japanese of three.

Opposes Franchise For Jap Veterans

B.C. Politicians of All Parties Protest Against Dominion Proposal

Victoria, B.C.—The government's proposal to grant the franchise to Japanese veterans of the Canadian expeditionary force is arousing strong protest from members of all shades of politics in the house, and when the debate on the motion for the second reading of the new Election Act was proceeded with, it was made clear that when the bill reached the committee stage a determined effort to eradicate the provision will be made.

W. J. Bowser, opposition leader, will move a amendment striking out the provision, and he will be supported from some government members, as well as the soldier representatives, the latter being against it.

Paris Threatened With Novel Strike

Citizens Walk and Chauffeurs Will Walk Out

Paris.—Chauffeurs threatened Paris with a novel strike, their demand being a diminution of fares. Since the law calling for increased taxation went into effect a few days ago, a long line of taxis have been idle, the citizens having taken to walking. Chauffeurs claim their income has been decreased 50 per cent, because of the recent increase in their rate of 100 per cent, and they demand that the rates be brought back to the former scale.

Increase Guard On Ex-Kaiser

Dutch Home of Former German Emperor Has Been Turned Into Prison Fortress

Amerongen.—Reinforcement of the Dutch guard at Von Bentheim's castle, which since the middle ages has been protected by moats and drawbridges, has made the former kaiser's refuge a veritable prison fortress, capable of defence even in the unexpected event of an attack, according to reports from the castle. The castle is situated in a big square. The four sides are posted, while two of them have additional walls.

Constables and military police patrol the roads night and day. To the right of the main entrance is a small building in which rest reinforcements. Here sentries are on guard. Besides this main gateway, a distance of 130 yards, is another gate, barring an inner driveway to the drawbridge. Here sentries are stationed. Still further on, where the road bends at another gate, there is also a guard. Then turning to the right, a driveway leads to the terrace on which the castle stands. Police patrol this terrace.

Beyond the dyke in the rear of the castle is a meadowland crossed by ditches and hedges, and in the meadow are patrols particularly warned to guard against the landing of airplanes. So strict has the guard over the former monarch become that J. B. Kan, general secretary of the Dutch government, charged with guarding the Hohenzollerns, had to produce a pass before being admitted.

Pacific Coast Airplane Race

San Francisco.—The Pacific Aero club has made an announcement for the first sanctioned air race ever held on the Pacific coast. It will be the Del Monte air race, on April 21. Frederick Porter, chairman of the contest committee, has mapped out the air route and conditions for the race, which will be from San Francisco to Del Monte, with no stops. The return will be over the same route. The distance is approximately 100 miles each way.

Spaniards Seek Hidden Treasure

Madrid.—The newspapers are demanding the government credit for the commencement of excavations in the province of Leon, to unearth Roman cities, which are believed to be buried there, and which tradition says contain great quantities of jewels and money and antiquities of great value. The papers desire that the task be assigned to experts who would be capable of making a success of it.

China's Plans

Honolulu.—The Peking government has instructed the Chinese minister in Washington to notify the state department that the policy of China is to reconcile the north and south factions in China before negotiating with Japan on the Shanghai situation, according to a Tokyo wireless message picked up here by the Japanese cruiser Yakuma.

Boy Killed By Blastmaster

Pueblo, Colo.—Five schoolboys, arrested in connection with the death of a boy, were charged with the crime. The 11-year-old son of Mrs. H. A. Kaykendall, confessed, according to the police, that they kicked the boy to death because they were jealous of his high standing in the school for boys attended.

Execution of Alvarez

Agua Prieta, Sonora, Mexico.—Jesus Alvarez, formerly a colonel in the army of Francisco Villa, and more recently operating as a bandit and playing a large part in the central and southwest sections of Sonora, has been executed by Carranza soldiers, according to military authorities here.

U. S. Senate Refuses To Ratify Treaty

Want Completion of Hudson Bay Road

Western Members Form Organization Which Is to Carry on Propaganda Work

Ottawa.—Western members of the House of Commons held a meeting and decided to press for the completion of the Hudson Bay railway this year. Those present formed themselves into an organization which is to carry on propaganda work. It was decided to draw up a resolution immediately for the order paper asking the government to proceed with the work at once.

T. A. MacNutt, Saltcoats, was appointed chairman of the organization, and J. A. Campbell, The Pas, secretary.

Mr. Campbell was asked to call upon the three cabinet ministers from the prairie provinces and ask for their support. Hon. J. A. Calder, who is confined to his home with a bad cold, could not be present at the conference, neither could Hon. T. A. Cregar. Both, however, are believed to be willing to support the project.

Last fall the estimate of the cost to complete the road was given as \$175,000, but estimates in various quarters this year place the figure at \$400,000. It is pointed out, however, that labor conditions last year were very much worse than they are likely to be this summer.

Earl Grey to Tour U. S.

Stated That He Will Visit America and Lecture on League of Nations

Montreal.—A London cable to the Montreal Star says more details concerning Lord Grey's forthcoming visit to the United States were revealed in the announcement that the diplomat planned a lecture tour with the League of Nations as his theme. He is an ardent proponent of the league, and believes that upon the support it receives in America depends in a large measure success or failure of the covenant.

When he went to Washington as British ambassador it was in his mind to travel over the country to speak in favor of the league, but while the treaty was in the senate, he felt himself constrained to silence.

On his return to the United States he will be without official status, and he may talk.

To Establish Fire Force

Appropriation of Million Dollars Will Be Asked During Present Session

Ottawa.—Plans for the establishment of a Canadian air force are being worked out by the Air Board with the assistance of the government, and the requisite legislation and appropriation will be brought down during the present session.

The first appropriation is estimated to be around \$1,000,000.

Hon. A. L. Sifton is chairman and Col. O. M. Biggar vice-chairman of the Air Board, which is behind the plan and has outlined the regulations regarding aerial service.

The whole world contains some 715,000 miles of railway, the United States easily topping the list with 265,000 miles.

Threaten Martial Law in Egypt

Cairo, Egypt.—Field Marshal Allenby, British high commander in Egypt and the Sudan, has issued a proclamation which sternly forbids any meetings, proceedings or resolutions by the legitimate assembly, or by the provincial councils, or by other elective bodies or members of them outside their legal competence. Violations of the proclamation are to be dealt with by martial law.

Winnipeg.—Bifurcous coal deposits totaling nearly 30,000,000 tons, and lying within three feet of the earth's surface, so that it may be loaded on cars as cheaply as gravel can be loaded in a ballast pit, have been located near Hager Park, according to Geo. E. McDonald, general manager of the Pacific Coast Eastern Railway, who was recently in the prairie provinces on a business trip.

Sims Concludes Charges Against U.S. Naval Dept.

Washington.—Concluding his long arraignment of the navy department's conduct of the war, Rear Admiral Sims laid before the United States senate investigating committee thirteen specific counts in his indictment charging the navy with gross negligence. Some of the principal points in the Admiral's summary of his charges follow:

"That in spite of the fact that war had been going on for nearly three years, and the United States had entered into it had been imminent, at 15:00 from February 2, 1917, the vessels of the navy were not ready for war service when the United States entered;

"That the navy department supplied Admiral Sims with no plans of policy covering United States participation in the war for three months after that country's entry into it."

Gloves—New Gloves in the approved styles and favored colors for Spring, 1920, are here in varied and interesting assortment.

Blouses—Charming New Blouses—Beautiful new Voiles in a variety of styles to please the most fastidious taste, and at prices to suit any purse.

FINED FOR INDECENT CONDUCT

Our citizens are aware that the local G.W.V.A. has furnished club rooms and also a furnished bed room, in the old Royal Bank building on Railway St. These rooms were acquired so that members of the organization might have some place to spend their evenings, and in case a member from out of town found difficulty in securing a bed, he was at liberty to use the one furnished by his comrades. This was a splendid and necessary convenience. For some time past, however, it has been rumored that the rooms were being used for other purposes than those intended. It was said that a bunch of rascals in the town were using the rooms as a gambling joint, and that there was a plentiful supply of booze up there at all times. When this rumor got to the ears of the Executive the town constable was instructed to look into the matter, and see that this state of affairs was remedied. The constable did as instructed, and the gambling was stopped. A day or two ago Const. Morris noticed young girls coming down from the rooms at unusually late hours and reported the matter to the President of the Association, T. J. McKenty, and that gentleman gave him instructions to keep an eye on the rooms, and if he thought they were being used for illegitimate purposes, to investigate.

On Saturday night last, about 12 o'clock, Const. Morris while wending his weary way down Railway street, observed four persons going up to the Club Rooms. Apparently two were males and two were of the feminine gender. The constable thought that at such a late hour respectable people would hardly be prowling around the town, and wondered what was the answer. He came to the conclusion that he would see what these parties were up to, and securing the services of two or three able assistants, he made a raid on the premises, stationing an assistant at the exits. His expectations were more than realized.

On ascending to the club room, everything was in darkness, and quietness reigned supreme. Then the bed room came in for inspection. Here he found two young men and two young women. The four were placed under arrest, and President of the G.W.V.A. informed. Mr. McKenty

told the Constable to release the parties, and that on Monday their case would be attended to.

A meeting of the Executive was held on Monday in the office of the president, it was unanimously decided to prosecute the parties concerned on a charge of trespass, and also on a more serious charge.

The four came up for trial on Tuesday and after one of the accused had been found guilty, the charges against the others were dropped as the Association considered that its object had been gained.

It is a shame that an organization of this nature is prostituted by the actions of men who are in no way connected with the G.W.V.A., and that the executive, composed as it is of our leading young citizens should be called to shoulder the shame heaped on it by irresponsible and depraved hoodlums.

(In consideration of the parents of the parties concerned, we are not publishing their names. While their names are well known to the citizens of our town, no good could be accomplished by giving any greater publicity outside.)

Bentley U.F.A. and U.F.W.A.

The Bentley U.F.A. and U.F.W.A. held a joint meeting on Saturday afternoon, Mar. 13, in the Bentley Opera House. There was a good representation of the Locals present. Several new members were secured.

A membership drive is being arranged by the members of the Locals for the near future. The side winning the most new members will be royally entertained. A thorough canvass of the district will be made, and every family will be visited. Mrs. J. B. Dane gave an excellent report of the 5th Annual Convention held in Calgary in January.

Her report showed that the U.F.W.A. organization is growing very fast having increased from 1512 to 3127 in the last year, that 113 new locals were organized.

The objective of the U.F.W.A. this year is to double its membership again. Our next meeting will be held Mar. 27, when the new members will be welcomed.
